Cc: deanna

Mike,

October status report. Might be useful for our meeting tomorrow. I may have screwed up on our possible dinner plans. I am through Friday afternoon-- I am not sure if we made firm plans for Friday night. If so, I apologize. Free tonight and tomorrow night.

Job Responsibilities

- * prepare a Long Term Internet Strategy for AOL to be presented to Mike
- * help those in charge, as needed, with WAIS integration
- * Direct reports: Deanna Weber

October accomplishments:

- * Keynote speech at Internet 95, talked on panel of other conference
- * Interviews with a few reporters (wired, and a Japan trade mag)
- * Talked to Internet and AOL companies
- (sent some reports to corporate development)
- * Refined my Oct Internet presentation to rediscuss with Mike on November trip.
- * Moved my main office into my house
- * Started moving wais.com onto personal server and disk.

November goals:

- * Internet Strategy: determine general direction with Mike for further refinement
- * Finish moving wais.com domain off of current server onto personal server.
- * Meet with Mike Connors on my Nov. trip.

Open questions for Mike:

- * I am interested in archiving large collections of Internet content. As this is not my current AOL responsibility, I am pursuing this on the side (in a non-profit way). I am being careful to not have it detract from my AOL responsibilities. If this is not kosher, lets discuss.

Thank you!

-brewster
